

I listen to K-LOVE on 90.5 in my area and want to petition to protect it from the expansion of LPFM. K-LOVE is the station I listen to 99% of the time and I value the information it provides to me. I also feel it is of tremendous benefit to our community as it provides a positive influence on our youth as well as adults. I know of no other non-commercial source that provides such a positive and encouraging impact as does K-LOVE. Thank you.
